U.S.D. #457

4/6/09

To Whom This May Concern,

We purchased Kaseya in May, 2007 and currently have it deployed on over 4000 machines across our district. The Kaseya solution has been a great investment for our school district, enabling us to automate most of our IT functions, eliminate inefficiencies, and have a clear view of our entire IT environment. The system is easy to set up and manage and is very reliable.

We are now able to offer top quality support to our users, and be proactive in the way we manage our assets. The IT staff is better utilized and our department is really saving the school district a lot of money.

I would gladly recommend Kaseya to any K12 school district that is looking for an IT Automation solution.

Sincerely,

A handwritten signature in blue ink that reads "Dale Wainwright". The signature is written in a cursive, flowing style.
